

APICS CSCP Learning System

Certified Supply Chain Professional (CSCP) Certification Preparation

The APICS Certified Supply Chain Professional (CSCP) program will help you develop into a supply chain leader who can create and execute a supply chain strategy that meets customer needs, reduces costs, and increases profits. With the APICS CSCP designation, you'll increase your value to employers who know that a well-run supply chain is a key component of a forward-looking and competitive enterprise.

To earn the APICS CSCP designation, candidates must meet eligibility requirements and pass the APICS CSCP exam. To help you get started, APICS has developed the APICS CSCP Learning System, a comprehensive professional development and exam preparation program based on the current APICS CSCP Exam Content Manual. This comprehensive training program combines print materials with interactive web-based study tools to provide a customized learning experience.

The learning system is divided into three modules:

- Fundamentals of Supply Chain Management
- Supply Chain Strategy, Design, and Compliance
- Implementation and Operations

Registration

\$1995.00 includes one-year APICS membership for new members!

\$1795.00 APICS Member Fee (10% off registration fee for current APICS members; membership will be verified. One-year membership not included.)
